

**FOR IMMEDIATE RELEASE**

**South Carolina Chiropractic Association Joins Growing Roster of State Groups to Include ACOM's RAPID Chiropractic Software in Member Benefit Program**

Columbia, South Carolina, June 23, 2008 – Joining a growing number of other State Chiropractic Associations, the board of directors of the South Carolina Chiropractic Association (SCCA) has approved a RAPID Member Benefit partnership with the Healthcare Business Division of ACOM Solutions, Inc., it was announced jointly today by Division Vice President Gregory T. Church and SCCA Executive Director Nicki Davis.

ACOM's Healthcare Business Division is the developer and marketer of the comprehensive RAPID suite of automated clinical and business management solutions for chiropractic and pain management clinics. The solutions enable physicians to automate clinical notes and documentation as well as [chiropractic billing and management](#) functions, establishing a streamlined, paperless workflow process that dramatically enhances efficiency, reduces labor and improves profitability.

The RAPID solution came to the attention of SCCA President Dr. Michael Tillman at the Congress of Chiropractic State Associations Convention in 2007, with Dr. Tillman subsequently arranging for the solution to be presented to the board of directors.

"When I saw RAPID demonstrated, I recognized its value immediately," Dr. Tillman said. "Its flexibility allows doctors to record notes and comments that reflect their own documentation style, and it serves as an excellent foundation for notes-driven billing, which is very important in today's reimbursement environment. We encourage members who are exploring [chiropractic office software](#) solutions to include RAPID among their considerations."

As a member benefit, the RAPID solution is available to SCCA members at a discount, with ACOM assigning a portion of its revenue to the association to help support its various member activities and services. ACOM will also participate in cooperative marketing activities with the association. Established in 1932, the SCCA currently has a membership of more than 520 doctors, affiliates and students.

"Our members are forward-looking and see the use of office automation as the future," Davis said. "ACOM's RAPID [chiropractic software](#) provides an excellent entry to the automated office, enabling doctors to record clinical notes on a tablet computer using on-screen helpers and scribing, and to build sophisticated electronic patient files from which reports can be generated automatically by pressing a few keys. We think our members will respond very favorably."

**About ACOM Healthcare Business Division**

The ACOM Healthcare Business Division serves chiropractic and the broader healthcare community with products and services that enhance efficiency, cut costs, increase revenues and propel practice success. ACOM's RAPID software suite simplifies and speeds clinical notes and reporting while supporting compliance, collections and front office operations. The ACOM Consulting group helps professionals build better practices by educating doctors in precise coding and devising procedures and programs for optimizing per-patient income. The ACOM Medical Billing Service allows doctors to offload billing and collection activities to a skilled third party team of coders and billing managers that support compliance, accelerate collections and reduce the likelihood of payment denials.
